

Problem Solution

MAN MATTERS × INFLUENCER SHOOT BRIEF

HAIR GUMMIES · AMJ 2026

BRIEF 1 — PROBLEM → SOLUTION

THE BIG IDEA

Hairfall has started. The viewer sees it on their **comb, pillow, hands while shampooing, and shower drain**. They've tried every **ghar ka nuska**, every oil, every shampoo — and they're still losing hair. They keep **waiting** — blaming everything else but the real reason. The real reason is something nobody told them: a **nutrition gap**. The fix is simple, daily, and starts now — Man Matters Hair Gummies.

WHAT THIS BRIEF IS ABOUT

The viewer sees the problem (hairfall everywhere), gets the wrong-fix montage out of the way, and then you go deep on **WHY the hairfall is happening which is nutrition gap**. Most hairfall content online is generic. Yours is specific, science-backed, and that's what builds trust.

WHAT WE WANT YOU TO SHOOT

You've noticed hairfall on your **comb, hands, pillow, and shower drain**, and you're confused about what's actually causing it. You get to know usually in the age group 18-26 when hairfall starts its usual nutrition gap which people don't usually know. You tried the usual — egg on scalp, onion paste, oils, shampoos — nothing worked, and you almost made the biggest mistake: **waiting it out** while blaming water and weather. Then you researched and found the hidden cause: a **nutrition gap**. You introduce **Man Matters Hair Gummies** as the fix, and this is where you go deepest — **explain how you lack nutrition cause of indian meals don't provide or fail to provide the right amount of nutrients which hair needs then explain how all the ingredients work together to prevent hairfall**. Biotin strengthens the hair structure from inside and reduces breakage; Zinc repairs damaged follicles; Vitamins A, C, E support scalp circulation. You show consistency over 90 days, mirror the opening hairfall shots with clean before/after proof, and close on the CTA. The viewer should walk away thinking: **"Ohhh, so THAT'S why my hair is falling — and that's exactly what hair gummies is preventing."**

Non-negotiables

- **Every 3 seconds = a reason to keep watching.** B-rolls, jump cuts, big text, sound FX, AI visuals — must. No "talking head" videos.
- Mention the hidden cause of hairfall which is the lack of nutrition that the hair needs.
- **Background music throughout.** Trending or upbeat or whatever suits — never silent.
- **Hairfall visuals on screen** — comb, pillow, hands while shampooing, shower drain. Real or AI. Not optional.
- **Influencer in multiple different outfits eating the gummy.** To showcase consistency montage.
- **Every wrong remedy must be visualised** — actually try it on camera or use B-roll/AI. Each tagged "didn't work" / fail graphic.
- **Show the kit on camera** — packaging, gummy box, single gummy close-up. Clean, well-lit shots.
- **Before / After proof shots** — hands, pillow, drain CLEAN. Mirror your opening visuals.
- **Length: 60–90 seconds.** Vertical 9:16. Captions / text overlays in English + Hinglish.
- **Mention 90-day expectation.** Don't overpromise — "consistency is the key."

The shared shoot backbone (locked)

Every video must hit these scenes **in this order**. 60–90 seconds. Vertical 9:16.

01	HOOK · Hairfall Visuals	Open with HARD VISUALS of hairfall on: • Comb · pillow · hands while shampooing · shower drain · hands running through hair
02	WHAT YOU TRIED	Show yourself / B-roll / AI trying every wrong fix. Each cuts back to hairfall STILL happening. Ghar ke nuske: egg · onion paste · vitamin-E capsule · dahi · kadhi patta · methi Oils: coconut · almond · amla · mustard Shampoos / anti-dandruff shampoos that promise hairfall control
03	THE WAITING TRAP	"Paani kharab hai, sheher change hua, mausam hai" — sab excuses hain. MUST SAY (in your own words): "Log 2 se 8 mahine wait karte hain — itna risk kyun lena?"
04	THE REAL REASON	Pivot to the actual cause — keep it simple, not a lecture. Indian diets — mess food, quick meals, irregular timings — don't give hair follicles the Biotin, Zinc, and Vitamins A, C, E they need. This nutrition gap is the hidden cause of hairfall in 18–26 yr old men.
05	THE FIX · Hair Gummies	Introduce Man Matters Hair Gummies on camera. Show packaging clearly. Ingredients: Biotin · Zinc · Vitamins A, C & E basically hair structure ko strong karta hai. Jo nutritional gap hai — jahan se hairfall start hota hai — biotin usko fix karta hai. Breakage aur shedding dono kam hote hain. 1 gummy daily, after any meal. Strawberry flavour, no added sugar, gelatin-free, gluten-free, gut-friendly, 100% vegan.
06	CONSISTENCY · 90 DAYS	Drive home: 90 days of daily use = real results. MANDATORY MONTAGE: you eating the gummy in multiple different outfits. Different rooms / times of day if possible. This visually sells "daily, for 90 days."
07	BEFORE / AFTER	Mirror Scene 01 visuals — but now CLEAN. Hands running through hair · pillow in the morning · shower drain — no fallen strands. Result line idea: "90 din baad — comb saaf, pillow saaf, hairfall almost stopped."

Section 05 — make this section land

This is the section where you go deeper than any other narrative. Spend extra seconds here. Explain at least 2 of the 3 ingredient blocks in your own words on camera.

Biotin (Vitamin B7)

- Strengthens hair structure
- Reduces breakage and shedding
- Helps fix the nutritional gaps that cause hair to fall in the first place

Zinc

- Repairs damaged follicles from within

Vitamins A, C & E

- Support healthy scalp circulation
- Help nutrients reach hair roots more effectively over time

CTA ideas (pick what feels natural — your call)

- "93% men saw reduced hairfall in 90 days — link in bio."
- "Comment 'GUMMY' and I'll send you the link."
- "Stop wasting months on nuske — start the science-backed fix."
- "Man Matters Hair Gummies. One gummy a day. That's it."

You can also write your own. Just keep it short, action-led, and end on Man Matters Hair Gummies

Approved claims / What to avoid

USE THESE	AVOID THESE
"93% men saw reduced hairfall in 90 days"	"Regrowth" / "new hair" guarantees
"Clinically tested ingredients"	"Cures baldness" / "reverses balding"
"Doctor-backed / dermatologist-approved"	"Stops thinning" / "baal patle nahi honge" (this product is hairfall-only, not thinning)
"10 lakh+ men trust Man Matters"	"100% results" / "guaranteed in X days"
"Reduces hairfall caused by nutritional deficiency"	Naming or trashing competitor brands
"Bridges the gap your daily diet misses"	Medical claims ("treats", "medicine", "cures")
"Designed for early-stage hairfall"	Promising results without 90-day consistency

Product quick facts

Composition: Biotin (Vitamin B7) · Zinc · Vitamin A · Vitamin C · Vitamin E.

Attributes: Strawberry flavour · No added sugar · Gelatin-free · Gluten-free · Gut-friendly · 100% vegan.

Usage: 1 gummy daily, after any meal. Morning or night, your call.

Result claim: 93% men saw reduced hairfall in 90 days. Use consistently for 90 days for visible results.

Important: Gummies are not a replacement for a balanced diet — they bridge the nutritional gap that diet alone can't fill.

About Man Matters

India's largest men's wellness brand. Trusted by **10 lakh+ men**. Doctor-backed, dermatologist-approved formulations built specifically for men's biology. Hair Gummies are the nutrition-first entry point — built to **stop hairfall before it gets worse**.

Myth Busting

MAN MATTERS × INFLUENCER SHOOT BRIEF

HAIR GUMMIES · AMJ 2026

BRIEF 2 — MYTH-BUSTING

LEAN-IN: GHAR KE NUSKE / OILS / SHAMPOOS ≠ THE FIX

THE BIG IDEA

Hairfall has started. The viewer sees it on their **comb, pillow, hands while shampooing, and shower drain**. They've tried every **ghar ka nuska**, every oil, every shampoo — and they're still losing hair. They keep **waiting** — blaming water, weather, the new city. The real reason is something nobody told them: a **nutrition gap**. The fix is simple, daily, and starts now — Man Matters Hair Gummies.

WHAT THIS BRIEF IS ABOUT

Myth-Busting is the **call-out** narrative. Every wrong remedy gets a **"DIDN'T WORK"** stamp on screen. Reframe the audience's instinct: hairfall is not an external problem you can rub away — it's also an **internal nutrition problem** that needs an internal fix.

WHAT WE WANT YOU TO SHOOT

You've been losing hair — comb, pillow, hands in the shower, the works. And like every Indian guy, you went straight to the **nuske**: egg on scalp, onion paste, Multivitamins/biotin tablets, vitamin-E capsules, dahi, kadhi patta, methi. Then oils — coconut, almond, amla, mustard. Then random shampoos that promise hairfall control. None of it worked, and you almost did the worst thing: **you started waiting** — blaming water, the new city, the season. Your job in this video is to **call out every single one of these myths** and bust them on camera (try them, show the fail, or use B-roll/AI). Then drop the truth bomb: **none of these touch the real cause that was really there — a nutrition gap**. That's why you switched to **Man Matters Hair Gummies** — internal nutrition, not external nuske. Show consistency over 90 days, mirror the opening hairfall shots with clean before/after, close on CTA. The viewer should walk away thinking: **"Yaar, mai bhi yahi galti kar raha tha — internal nutrition ke baare mein toh socha hi nahi."**

Non-negotiables

- **Mention the hidden cause of hairfall which is the lack of nutrition that the hair needs.**
- **Every 3 seconds = a reason to keep watching.** B-rolls, jump cuts, big text, sound FX, AI visuals — must. No "talking head" videos.
- **Background music throughout.** Trending or upbeat or whatever suits — never silent.
- **Hairfall visuals on screen** — comb, pillow, hands while shampooing, shower drain. Real or AI. Not optional.
- **Influencer in multiple different outfits eating the gummy.** To showcase consistency montage.
- **Every wrong remedy must be visualised** — actually try it on camera or use B-roll/AI. Each tagged "didn't work" / fail graphic.
- **Say the line:** "Log 2 se 8 mahine wait karte hain." In your own words. This insight must land.
- **Show the kit on camera** — packaging, gummy box, single gummy close-up. Clean, well-lit shots.
- **Before / After proof shots** — hands, pillow, drain CLEAN. Mirror your opening visuals.
- **Length: 60–90 seconds.** Vertical 9:16. Captions / text overlays in English + Hinglish.
- **Mention 90-day expectation.** Don't overpromise — "consistency is the key."

The shared shoot backbone (locked)

Every video must hit these scenes **in this order**. 60–90 seconds. Vertical 9:16.

01	HOOK · Hairfall Visuals	Open with HARD VISUALS of hairfall on: • Comb · pillow · hands while shampooing · shower drain · hands running through hair
02	WHAT YOU TRIED	Show yourself / B-roll / AI trying every wrong fix. Each cuts back to hairfall STILL happening. Ghar ke nuske: egg · onion paste · vitamin-E capsule · dahi · kadhi patta · methi Oils: coconut · almond · amla · mustard Shampoos / anti-dandruff shampoos that promise hairfall control
03	THE WAITING TRAP	"Paani kharab hai, sheher change hua, mausam hai" — sab excuses hain. MUST SAY (in your own words): "Log 2 se 8 mahine wait karte hain — itna risk kyun lena?"
04	THE REAL REASON	Pivot to the actual cause — keep it simple, not a lecture. Indian diets — mess food, quick meals, irregular timings — don't give hair follicles the Biotin, Zinc, and Vitamins A, C, E they need. This nutrition gap is the hidden cause of hairfall in 18–26 yr old men.
05	THE FIX · Hair Gummies	Introduce Man Matters Hair Gummies on camera. Show packaging clearly. Ingredients: Biotin · Zinc · Vitamins A, C & E basically hair structure ko strong karta hai. Jo nutritional gap hai — jahan se hairfall start hota hai — biotin usko fix karta hai. Breakage aur shedding dono kam hote hain. 1 gummy daily, after any meal. Strawberry flavour, no added sugar, gelatin-free, gluten-free, gut-friendly, 100% vegan.
06	CONSISTENCY · 90 DAYS	Drive home: 90 days of daily use = real results. MANDATORY MONTAGE: you eating the gummy in multiple different outfits. Different rooms / times of day if possible. This visually sells "daily, for 90 days."
07	BEFORE / AFTER	Mirror Scene 01 visuals — but now CLEAN. Hands running through hair · pillow in the morning · shower drain — no fallen strands. Result line idea: "90 din baad — comb saaf, pillow saaf, hairfall almost stopped."
08	CTA	Close strong. Pick whatever feels most natural to you — see CTA ideas in the brief-specific section.

The myths to bust

- Egg on scalp
- Onion paste
- Biotin / Multivitamins Tablets
- Vitamin-E capsule on scalp
- Dahi / kadhi patta / methi paste Coconut / almond / amla / mustard oil Random / anti-dandruff shampoos
- Waiting it out

The truth flip

Pivot line: "Yeh sab bahar se kar rahe ho — hairfall andar se ho raha hai. Ek nutrition gap hai jo mess food, quick meals, irregular diet se hota hai. Biotin, Zinc, Vitamins — yeh diet se mil hi nahi rahe. Aur jab follicle ko nutrition nahi milta — hairfall start ho jata hai."

Then introduce Hair Gummies as the **internal, science-backed fix** — not another nuska, not another oil.

Section 05 — what to cover

After busting the nuske, name the ingredients to establish that this is the **real, science-backed fix** — not another nuska. Mention all three quickly:

Biotin (Vitamin B7)

- Strengthens hair structure
- Reduces breakage and shedding
- Helps fix the nutritional gaps that cause hair to fall in the first place

Zinc

- Repairs damaged follicles from within

Vitamins A, C & E

- Support healthy scalp circulation
- Help nutrients reach hair roots more effectively over time

CTA ideas (pick what feels natural — your call)

- "93% men saw reduced hairfall in 90 days — link in bio."
- "Comment 'GUMMY' and I'll send you the link."
- "Stop wasting months on nuske — start the science-backed fix."
- "Man Matters Hair Gummies. One gummy a day. That's it."

You can also write your own. Just keep it short, action-led, and end on Man Matters Hair Gummies

Nutrition

MAN MATTERS × INFLUENCER SHOOT BRIEF

HAIR GUMMIES · AMJ 2026

BRIEF 3 — NUTRITION

LEAN-IN: 18–26 YR OLD INDIAN DIETS ≠ ENOUGH HAIR NUTRITION

THE BIG IDEA

Hairfall has started. The viewer sees it on their **comb, pillow, hands while shampooing, and shower drain**. They've tried every **ghar ka nuska**, every oil, every shampoo — and they're still losing hair. They keep **waiting** — blaming water, weather, the new city. The real reason is something nobody told them: a **nutrition gap**. The fix is simple, daily, and starts now — Man Matters Hair Gummies.

WHAT THIS BRIEF IS ABOUT

Nutrition is the **"hidden cause"** narrative. This brief is about the **18–26 demographic and their actual eating reality** — and how that eating reality is silently triggering hairfall before they even know what's happening. **Heavy on relatable food / lifestyle B-roll.**

WHAT WE WANT YOU TO SHOOT

You're 18–26, in college / first job / hostel / PG / mess. Hairfall has started — comb, pillow, hands in the shower — and you have **no idea why**. You don't know what's happening? You go down the same wrong path everyone does: nuske, oils, shampoos, then the **waiting trap** — blaming water and weather for 2 to 8 months while hairfall keeps getting worse. Your video opens up the real culprit nobody talks about: **your diet**. Bahar ka khana, junk food, and generally toh normal Indian diet mai se bhi wo nutrients nahi milte jo baalon ko chaheye — your hair follicles aren't getting the Biotin, Zinc, and Vitamins A, C, E they need. **Man Matters Hair Gummies** exist for exactly this — they fill the nutrition gap your daily Indian diet can't. That doesn't mean you will not maintain a proper diet, it's vital to maintain a proper diet as well and not just rely on hair gummies. Show your daily eating reality, show the gummy fitting into it (one after any meal — done), then 90-day consistency montage, before/after, CTA. The viewer should walk away thinking: **"Ohhh, mera khaana hi hairfall ki wajah ho sakta hai — aur mai wait karke time waste kar raha hu."**

Non-negotiables

- **Mention the hidden cause of hairfall which is the lack of nutrition that the hair needs.**
- **"Indian diets generally lack these specific hair nutrients. Mess ka khaana, quick meals, irregular timings,— body ko Biotin, Zinc, Vitamins mil hi nahi rahe."**
- **Every 3 seconds = a reason to keep watching.** B-rolls, jump cuts, big text, sound FX, AI visuals — must. No "talking head" videos.
- **Background music throughout.** Trending or upbeat — never silent.
- **Hairfall visuals on screen** — comb, pillow, hands while shampooing, shower drain. Real or AI. Not optional.
- **Influencer in multiple different outfits eating the gummy.** To showcase consistency montage.
- **Every wrong remedy must be visualised** — actually try it on camera or use B-roll/AI. Each tagged "didn't work" / fail graphic.
- **Say the line:** "Log 2 se 8 mahine wait karte hain." In your own words. This insight must land.
- **Show the kit on camera** — packaging, gummy bottle, single gummy close-up. Clean, well-lit shots.
- **Before / After proof shots** — hands, pillow, drain CLEAN. Mirror your opening visuals.
- **Length: 60–90 seconds.** Vertical 9:16. Captions / text overlays in English + Hinglish.

- **Mention 90-day expectation.** Don't overpromise — "consistency is the key."

The shared shoot backbone (locked)

Every video must hit these scenes **in this order**. 60–90 seconds. Vertical 9:16.

01	HOOK · Hairfall Visuals	Open with HARD VISUALS of hairfall on: • Comb · pillow · hands while shampooing · shower drain · hands running through hair
02	WHAT YOU TRIED	Show yourself / B-roll / AI trying every wrong fix. Each cuts back to hairfall STILL happening. Ghar ke nuske: egg · onion paste · vitamin-E capsule · dahi · kadhi patta · methi Biotin / Multivitamins tablets Oils: coconut · almond · amla · mustard Shampoos / anti-dandruff shampoos that promise hairfall control
03	THE WAITING TRAP	"Paani kharab hai, sheher change hua, mausam hai" — sab excuses hain. MUST SAY (in your own words): "Log 2 se 8 mahine wait karte hain — itna risk kyun lena?" Land it: "Jab dikh raha hai, tab hi rok do."
04	THE REAL REASON	Pivot to the actual cause — keep it simple, not a lecture. Indian diets — mess food, quick meals, irregular timings — don't give hair follicles the Biotin, Zinc, and Vitamins A, C, E they need. This nutrition gap is the hidden cause of hairfall in 18–26 yr old men. Punchline: "Nuske se yeh fix nahi hoga — andar se nutrition chahiye."
05	THE FIX · Hair Gummies	Introduce Man Matters Hair Gummies on camera. Show packaging clearly. Ingredients: Biotin · Zinc · Vitamins A, C & E basically hair structure ko strong karta hai. Jo nutritional gap hai — jahan se hairfall start hota hai — biotin usko fix karta hai. Breakage aur shedding dono kam hote hain. 1 gummy daily, after any meal. Strawberry flavour, no added sugar, gelatin-free, gluten-free, gut-friendly, 100% vegan.
06	CONSISTENCY · 90 DAYS	Drive home: 90 days of daily use = real results. MANDATORY MONTAGE: you eating the gummy in multiple different outfits. Different rooms / times of day if possible. This visually sells "daily, for 90 days."
07	BEFORE / AFTER	Mirror Scene 01 visuals — but now CLEAN. Hands running through hair · pillow in the morning · shower drain — no fallen strands.

		Result line idea: "90 din baad — comb saaf, pillow saaf, hairfall almost stopped."
08	CTA	Close strong. Pick whatever feels most natural to you — see CTA ideas in the brief-specific section.

The nutrition story — what to land on camera

- **"Mess ka khaana, quick meals, irregular timings,—** body ko Biotin, Zinc, Vitamins mil hi nahi rahe."
- **"Indian diets generally lack these specific hair nutrients.** It's not your fault — but it is your problem."
- **"Aur jab follicle ko nutrition nahi milta — hairfall start ho jata hai.** Quietly. Slowly."
- **"Most 18–26 yr old guys don't know this —** they wait 2 to 8 months thinking it's water or city or stress. By then hairfall already advanced stage pe ja chuka hota hai."

Section 05 — what to cover

Frame the ingredients as the **specific nutrients your diet is missing**. The story stays nutrition-first throughout:

- **Biotin (Vitamin B7)** — strengthens hair structure, reduces breakage and shedding.
- **Zinc** — repairs damaged follicles from within.
- **Vitamins A, C & E** — support scalp circulation, help nutrients reach hair roots more effectively over time.

Hair Gummies as the nutrition fix — usage details

- 1 gummy daily, after any meal — fits effortlessly into any 18–26 yr old's routine.
- Strawberry flavour, no added sugar, gelatin-free, gluten-free, gut-friendly, 100% vegan.
- "This is not magic. Diet bhi maintain karna padega. Gummy bridge karta hai woh gap jo regular meals se cover nahi hota."

Mandatory adds — this brief only

- Show your eating reality on camera — mess plate / Swiggy / Maggi / late-night snacks / skipped breakfast. B-roll heavy.
- Spend extra emphasis on the "2 to 8 months waiting" insight — say it slowly, with text overlay.
- Frame ingredients as gap-fillers, not as the headline. The headline here is the diet problem itself.

CTA ideas (pick what feels natural — your call)

- "Start early. Hairfall ko advanced stage tak mat pohonchne do — abhi nutrition se rok do."
- "One gummy after any meal. That's all your hair was missing."
- "93% men saw reduced hairfall in 90 days — start now."
- "Comment 'GUMMY' — main link bhej deta hu."

You can also write your own. Keep it tied to the nutrition story you just told — the CTA should feel like the natural next step after the diet-realisation moment.
