

Problem - Solution

MAN MATTERS × INFLUENCER SHOOT BRIEF

STAGE 1 ANTI-HAIRFALL KIT · AMJ 2026

PROBLEM → SOLUTION NARRATIVE

THE BIG IDEA:

This is your **personal journey** video. You noticed hairfall and hair thinning early, tried every **ghar ka nuska, oil and shampoo**, wasted months waiting it out - then found the **real reason** (DHT + nutrition gap) and the **real fix**: Man Matters Stage 1 Anti-Hairfall Kit. Show the journey, then show the result.

WHAT THIS BRIEF IS ABOUT

From "I had this problem" to "this is what worked." The viewer sees the problem, gets the wrong-fix montage out of the way, and then **you go deep on the science**. Most hairfall content online is generic. Yours is specific, science-backed, and that's what builds trust.

WHAT WE WANT YOU TO SHOOT:

You **noticed hairfall and hairthinning / baal patle / weak early** — on your comb, hands, pillow, shower drain — and you were confused about what was actually causing it. You tried the usual playbook — **egg on scalp, onion paste, oils, shampoos** — nothing worked. You almost made the biggest mistake: waiting it out, blaming water and weather. Then you researched and found the two main causes — **DHT (the hormone that shrinks follicles)** and a **nutrition gap** (your daily food doesn't give your follicles the Biotin, Zinc, Vitamins A/C/E they need). You introduce Man Matters Stage 1 Anti-Hairfall Kit, explain how the kit works from both ways - internally gives nutrition to the hair follicles with the help of biotin, zinc and vitamins a,c and e and externally uses procapil and redensyl to block dht and strengthen weak hair.) Show yourself using the products, serum once daily and gummy once a day after an meal. Internal nutrition and external strengthening. Also include that the stage 1 anti hairfall kit uses natural ingredients which are clinically proven. Show 90-day consistency in multiple outfits. Stop hairfall and hair thinning or Stop hairfall and strengthen weak hair. Mirror your opening hairfall visuals with clean before/after proof. Close on a strong CTA.

NON-NEGOTIABLES - DO NOT SKIP

- ✓ **Every 3 seconds = a reason to keep watching.** B-rolls, jump cuts, big text, sound FX, AI visuals - must. No "talking head" videos.

- ✓ **Hairfall visuals on screen** - comb, pillow, shower, hands.

- ✓ **Say the line:** *"Log 2 se 8 mahine wait karte hain."* This insight must be in the video, in your own words.
- ✓ **Science must land. Explain in basic how procapil and redensyl block dht and strengthens hair and how biotin zinc and vitamins a,c and e gives nutrition to the hair from within and reduces breakage and shedding.**
- ✓ **Before / After proof shots** - hands, pillow, drain CLEAN + hair looking thicker/stronger. Mirror your opening visuals. Split-screen or swipe transition.
- ✓ **Show the kit on camera** - packaging, gummies, serum bottle, dropper. Clean, well-lit shots.
